

Electricity Data Utility Consent Form

On-Ground Energy Efficiency Assessment Project

To the Electricity Supplier

I/We, the account holder(s) at the address below authorise you, the electricity supplier, to release billing information for this address to the Moreland Energy Foundation Limited (MEFL). The specific information I authorise you to release is all usage charges associated for electricity supplied for the period covering the period 42 months prior to the signing of this consent form or relevant part thereof (see below).

I understand that:

1. the information I have provided to MEFL together with this billing data consent form is for the purposes of MEFL conducting research into household consumption of energy as part of the 'Expanded On-ground Assessment of the Energy Efficiency Potential of Victorian Homes' project;
2. MEFL will share billing information with our project partners Sustainability Victoria and RMIT Centre for Design in order undertake an analysis of the energy efficiency potential my house. Only de-identified, non-personal information will be provided to Sustainability Victoria and RMIT Centre for Design;
3. the information gathered in the delivery of this project may be used by MEFL, Sustainability Victoria and RMIT Centre for Design in the future for other purposes, such as large-scale modelling, determining ways to improve the efficiency of Victoria's housing, or to inform policy, research and community education programs in Victoria. Sustainability Victoria and RMIT Centre for Design will only have de-identified, non-personal information so it will not be possible for their work to identify you or your household. The information will be used by MEFL in such a manner that it will not be possible to identify you or your house.
4. the information I provide to MEFL is confidential and cannot be disclosed to any other person or authority in a form that identifies me or my household for any reason except the reason stated in point 2 of this consent form;
5. all reporting using this information will occur in such a way that it will not be possible to identify me or my household. All information will be de-identified before publishing.
